APPUGOUDA B. PATIL

Solutions Architect | AWS Certified | Cloud-Native Expert | Digital Transformation Leader

appugouda.architect@gmail.com | +91-7019432993 | linkedin.com/in/appugouda-b-patil

SUMMARY

Seasoned AWS Solutions Architect, bringing 17+ years of experience designing and delivering cloud-native, serverless, and event-driven architectures across AWS and hybrid environments. Skilled in building scalable, fault-tolerant, and highly available systems using IaC, multi-region deployments, and the Well-Architected Framework. Experienced in cloud migration, cost optimization, Agile delivery, stakeholder engagement, PoC development, and enabling digital transformation through resilient, future-ready solutions.

CERTIFICATIONS

- **AWS Certified® Solution Architect - Associate**
- **AWS Certified® Cloud Practitioner**

TECHNICAL SKILLS

Languages: Javascript, Typescript, Python, Java, SQL

Technologies & Tools: AWS, Node Js, Nest Js, MERN Stack, Next Js, React Js, MySQL, PostgreSQL, MongoDB, Docker, Nginx, Apache, Aceternity UI, Framer Motion

Database & Data Stores: PostgreSQL, MySQL, MongoDB, DynamoDB, Redis

DevOps & CI/CD: Docker, GitHub Actions, AWS CodePipeline, Terraform, Git

Monitoring & Logging: AWS CloudWatch, AWS X-Ray, Prometheus, Grafana, ELK Stack

Architecture Paradigms & Patterns:
Microservices | Event-Driven | Serverless Design
Domain-Driven Design (DDD) | CQRS | Saga/Orchestration
Multi-Tier / N-Tier Architectures | Modular Monolith
Integration Patterns | API Gateway

Resilience & Performance

High Availability, Fault Tolerance & Load Balancing

Global Scalability & Elastic System Design

Caching Strategies (CDN, Redis, Memcached)

Multi-Region & DR Architectures

Security & Governance

Identity & Access Management (IAM, RBAC, SSO, OAuth2)

Zero Trust Architecture & Network Segmentation

Secure SDLC & Threat Modeling

Architecture Reviews & Well-Architected Framework Assessments

PROFESSIONAL SKILLS

Leadership & Strategic Execution
- Technical Project Leadership & Governance
- Cross-Functional Team Collaboration (Engineering, Product, Security, Business)
- Stakeholder Engagement & Executive Communication
- Requirements Gathering, Analysis & Business Alignment
- Mentoring, Coaching & Technical Talent Development
- Agile, Scrum, and SAFe Implementation & Facilitation

Operational Optimization & Risk Management
- Cost Optimization (RI/SPs, Autoscaling, Rightsizing, Usage Monitoring)
- Performance Tuning & Observability (APM, Tracing, Logging, Metrics)
- Risk Mitigation, Disaster Recovery, & Resilience Engineering
- SLA/SLO Definition, Capacity Planning & Service Reliability

KEY ACHIEVEMENTS

- Architected and automated an ETL pipeline with data deduplication using AWS Step Functions, Lambda, and Glue, eliminating manual workflows and achieving a 70% reduction in operational costs.
- Delivered a high-impact POC for an EduTech platform capitalizing on modern mobile tech stacks and AWS-native services, enabling 30% revenue growth, securing multiple full-cycle project wins, and supporting a 4x expansion in the engineering team.

AWS EXPERTISE

Compute , Containers & App Integration: EC2, ASG, Beanstalk, Lambda, AWS Fargate, ECS, ECR

SNS, SES, SQS, EventBridge, Step Functions, API Gateway

Security, Identity, Compliance & Governance: IAM, AWS Organizations, Amazon Cognito,AWS Certificate Manager (ACM), Amazon KMS, Inspector, AWS WAF, Shield, CloudFormation, CloudWatch, CloudTrail, AWS Config

Database , Storage, Analytics & Networking: RDS, DynamoDB, ElastiCache, S3, EBS, EFS, Storage Gateway, AWS Backup, VPC, ELB, CloudFront, Route 53, Athena, Glue
Developer Tools & CFM: AWS Amplify**,** CodeCommit, CodePipeline, CodeBuild, CodeDeploy, AWS Budgets, Cost Explorer, Cost & Usage Report, Savings Plan

☐ WORK EXPERIENCE

Freelance: AWS Solution Architect / Consultant — Dec 2023 - Present

- Architected and delivered scalable, secure, and cost-optimized AWS solutions for 5+ clients across Education, Retail, and LBS domains, achieving 35% average cost savings.
- Engineered RESTful APIs using Python and FastAPI, enabling seamless integration and data exchange across distributed systems.
- **Fortified** cloud security by implementing IAM policies, MFA, encryption (at rest and in transit), WAF, Security Groups, and NACLs—**reducing vulnerability exposure by 50%**.
- **Coached and accelerated** the development of 4+ Junior Architects, improving AWS certification readiness by an average of 3 months.

Goavega Software Solutions Pvt. Ltd. : Technical Architect — May 2017 - Nov 2023

- **Drove** cloud transformation initiatives for a Healthcare client, utilizing AWS-native services to achieve **40% cost savings** and improved reliability.
- Built and implemented a secure Identity Verification system using Cognito, Lambda, API Gateway and S3, enhancing user onboarding by 60%. and providing RBAC for Clinical Trial Management Software (CTMS)
- Devised a serverless data integration workflow harnessing AWS Glue, Lambda, Step Functions, and S3 to unify multi-source datasets—cutting operational costs by 70% and delivering $50K in annual savings.
- Designed security-compliant architectures following AWS Well-Architected Framework, resulting in a **50% drop in security incidents.**
- Directed cross-functional teams (15+ members including Staff Engineers, BAs, UI/UX, and Architects) to build a gig-work platform from the ground up, boosting go-to-market by **30%**.
- Championed a mentorship program for junior engineers toward cloud certification & best practices adoption.

Calpion Software Tech Pvt. Ltd. : *Technology Specialist* — Mar 2013 - May 2017

- **Defined and modernized** legacy logistics systems by introducing scalable, cloud-native architecture patterns, resulting in a **40% operational cost reduction**.
- Orchestrated end-to-end modernization of a legacy logistics platform, leveraging a modern tech stack and cloud-native solutions to streamline operations and achieved a 40% reduction in infrastructure and operational costs.
- **Supervised and empowered** a team of six developers through a critical system refactor, achieving **zero production defects** over a 6-month period and **accelerating product delivery timelines**.
- Established CI/CD workflows using AWS Code Pipeline, Docker, and AWS ECS, cutting release cycle times by 30%.
- Bridged communication between technical teams and business stakeholders, ensuring solutions aligned with evolving business needs.

Mindtree Ltd. : *Sr. Software Engineer* — Jun 2007 - Nov 2011

- Executed cloud-native prototypes using AWS (EC2, S3, Beanstalk, AMI, CloudWatch) for early-stage solution validation at Mindtree Labs.
- **Created** a mobile POC for an Art Gallery Android app that **guided executive buy-in** on mobile-first adoption strategy.
- **Contributed** to full lifecycle development—including UI/UX design, network communication, and data persistence—ensuring a performant and user-centric mobile experience.

☐ EDUCATION

Master of Computer Applications: 74.05%

B.M.S. College of Engineering. Bengaluru, India
Visvesvaraya Technological University, Belgaum

☐ LEADERSHIP & AWARDS

- ❖ Won Best Mentor Award for the year **2018** in Goavega Software Pvt. Ltd.
- ❖ Won the Best Techwork Award for the Techwork project "Outlook Meeting Manager" in MindTree for the Year 2008-2009.
